

The Stuart Low Trust

bringing people together for better health and wellbeing

Activity Programmes Manager - Background information

About the Stuart Low Trust

The Stuart Low Trust (SLT) exists to provide support adults living in Islington and surrounding boroughs who are socially marginalised. SLT was set up in 1997 by Islington residents in memory of Stuart Low, who was diagnosed with schizophrenia and took his own life aged 27, when he couldn't find the right help at the right time. SLT aims to fill a service gap which continues, so that local people have quick access to community-based activity support groups.

SLT provides safe, non-judgemental environments that combat social isolation and stigma, by building community resilience, mental wellbeing, coping skills and social inclusion. Through outcomes evaluation surveys completed at sessions, 89% participants report improved wellbeing at the end of the sessions.

SLT is uniquely:

- **accessible** by offering support at times of increased risk from isolation at evenings and weekends.
- **inclusive** by avoiding the complex eligibility criteria of publicly-funded services.
- **community-embedded** by running all activities in collaboration with community partners.
